

Big Thing

Lisa Stansfield

Chorus:

Love is a big thing
And we've got love
We don't need nobody else
Love is a big thing
And we've got love
We don't need nobody else
Love is a big thing

I'm living for your lovin', baby
And for the next time
Nothing's getting in the way
There's nothing I can fight
I can wait forever, baby
To be by your side
I can wait forever, baby
To be with you again
Need your body keepin' me warm
Need your touch to keep me going

(Chorus)

Gonna tell the world about you
And all you've given me
No one gives me lovin', baby
The way you give me love
I'm waiting for your arms to hold me
And just to touch your face
I'm living for your lovin', baby
And for the next time
Need your body keepin' me warm
Need your touch to keep me going

(Chorus)

I'm living for your lovin', baby
And for the next time
Nothing's getting in the way
There's nothing I can fight
I can wait forever, baby
To be by your side
I can wait forever, baby
To be with you again
Need your body keepin' me warm
Need your touch to keep me going

(Chorus)

I can wait forever
I can wait forever
