

Desire

Lisa Stansfield

You're in my heart and
You're in my soul boy
You're everything I need
And if you so desire
I will give you everything

What a beautiful creature you are
You really are the brightest star
Walk into the room, all eyes on you
So brand new
Unaware of yourself so free
Then your eyes land on me
I feel the tingle like a hurricane
I wanna dance with you in the pouring rain

And if you so desire
I'll treat you like a king
I'll set your world on fire babe
And give you all that love can bring
'Cos you're in my heart and
You're in my soul boy
You're everything I need
And if you so desire
I will give you everything

What a beautiful thing I've become
You touch my face and I'm undone
I'll never be the same again
Baby you beat me at my own game

And if you so desire
I'll treat you like a king
I'll set your world on fire babe
And give you all that love can bring
'Cos you're in my heart and
You're in my soul boy
You're everything I need
And if you so desire
I will give you everything

Come closer to the heart
The heart that wants you
Come closer to my beating heart
I'm ready to be torn apart

And if you so desire
I'll treat you like a king
I'll set your world on fire babe
And give you all that love can bring
'Cos you're in my heart and
You're in my soul boy
You're everything I need
And if you so desire
I will give you everything

Everything
I'll set your world on fire babe

And give you all that love can bring
'Cos you're in my heart and
Baby you're in my soul boy
You're everything I need
