

# Everything

Lisa Stansfield

I can feel the love tonight

Wait to see if I will put up a fight  
I won't let it go, mmmh

I see the [?]  
Know it's time  
You're my reason  
You're my rhyme

Do you want it all  
Say, do you really want it all  
Feeling like a lightning bolt

Everything I have is yours, baby  
Everything I got, you're everything I've got  
Everything you want and more, baby  
Everything I got, ooh babe, everything or nothing  
Everything I have is yours, baby  
Everything I got, yeah everything I got, babe  
Everything you want and more, baby  
Everything I got, everything or nothing

You don't have to play my baby  
'Cause you [?]  
I'm ready for the night of my life  
I wanna [?] good

I see that feeling[?]  
Up and down my spine  
My heart starts beating  
I'm feeling fine

Do you want it all  
Say, do you really want it all  
Feeling like a lightning bolt

Everything I have is yours, baby  
Everything I got, you're everything I've got  
Everything you want and more, baby  
Everything I got, ooh babe, everything or nothing  
Everything I have is yours, baby  
Everything I got, yeah everything I got, babe  
Everything you want and more, baby  
Everything I got, everything or nothing

Yeah  
Yeah  
(Everything)  
(Everything)

Do you want it all  
Say, do you really want it all  
Feeling like a lightning bolt

Everything I have is yours, baby  
Everything I got, oh everything I've got

Everything you want and more, baby  
Everything I got, yeah, everything or nothing  
Everything I have is yours, baby  
Everything I got, ooh, everything I got, babe  
Everything you want and more, baby  
Everything I got
