

Love Of My Life

Lisa Stansfield

Friday Friday
Keep your nose tidy

I can feel it rising in my soul
It's taking everything I have to keep control
Taking hold now, doin' what it should
I can feel it rising and it sure feels good

I'm just getting warmed up now
Warmed up for you babe
Ain't nothing standing in my way
And I know what you got now
C'mon pass it my way
Whadda you say babe
Whadda you say

A hard day's work
I've gotta get a drink
I'm dying for a smoke
And I'm gonna meet the love of my life
Gonna trap tonight
Friday night beckons
Gonna spend my money
I'm gonna make some honey
'Cos I'm gonna meet the love of my life
Gonna trap tonight
Gonna catch your eye

I need ammunition, where's my perfume?
Put my hand on my heart and feel the boom boom boom
So baby are you ready, you better get ready
It's gonna hit real soon

Ooh ooh ooh, I'm just getting warmed up now
Warmed up for you babe
Ain't nothing standing in my way
And I know what you got now
Come on pass it my way
Whadda you say baby
Whadda you say

A hard day's work
I've gotta get a drink
I'm dying for a smoke
And I'm gonna meet the love of my life
Gonna trap tonight
Glass in hand as I listen to the band
It thrills me to the core
To think that you could be the love of my life
Gonna trap tonight
Don't say it twice
Gonna make it nice
Never sacrifice

Friday Friday
Keep your nose tidy
Friday Friday

Keep your nose tidy

Look at my life
It's upside down
Well I'm gonna go to town
And I'm gonna find the love of my life
I feel my heart go boom
As you work that room
I'm nearly on my honeymoon
'Cos I'm looking at the love of my life
Gonna trap tonight
Don't say it twice
Gonna make it nice
Never sacrifice
Don't say it twice
Gonna make it nice
Never sacrifice

Friday Friday
Keep your nose tidy
