

## Love in the City

Lissie

I think there is something wrong with my heart  
It feels like it has been taking apart  
And left out with the junk on the street, 'cause  
It don't beat

Somethings got a hold on my mind  
I'm living in a life that's not mine  
I know there's a million of folks to me, but  
They just passed  
In the street

Maybe love, don't live  
In the city  
No love, all give  
In the city

Every night I look at the sky  
And all I see are planes that fly by  
There ain't no stars up there 'cause  
It's no clear  
So unclear, so unclear

Maybe love, don't live  
In the city  
No love, all give  
In the city  
And I stay all night  
Under the neon lights  
But nothing goes right for me  
No love  
Can't love in the city
