

# **Sad**

**Lissie**

I wish I could feel sorry for you  
But you make it hard to do  
And now I'm waking up with the truth  
You make it hard, hard

And when you hear this song  
I want you to be sad  
Like when you dropped that bomb  
Want it to feel like that

I don't care, I hope you hate me  
Go tell all your friends I'm crazy  
Hope you feel sad, hope you feel bad  
I hope you're sad

I don't need to know you anymore  
You're so cold hearted  
Something opened up when you closed that door  
You're so gone, gone

And when you hear this song  
I want you to be sad  
Like when you dropped that bomb  
Want it to feel like that

I don't care, I hope you hate me  
Go tell all your friends I'm crazy  
'Cause you don't like when I get angry  
And hold a mirror for you baby  
Hope you feel sad, hope you feel bad

I won't say I didn't love you  
I won't say I can't forgive  
But I need you to know your actions have consequence

And when you hear this song  
I want you to be sad  
Like when you dropped that bomb  
Want it to feel like that

I don't care, I hope you hate me  
Go tell all your friends I'm crazy  
'Cause you don't like when I get angry  
Here's a mirror for you baby  
Hope you feel sad, hope you feel bad  
I hope you're sad
