

Somewhere

Lissie

I take a breath
I close my eyes
I'm in another space and time
A hidden layer
Another crime of reality
Parallel lines

Somewhere we are together
Somewhere in the stars
Imagine we are together in a world that isn't ours
And you're holding me so tightly
And this time you don't leave
Somewhere we are together
Somewhere in the stars

I take a step beyond this place
And I am floating in outer space
Those people there, they look like we do
But all their dreaming is coming true

Somewhere we are together
Somewhere in the stars
Imagine we are together in a world that isn't ours
And you're holding me so tightly
And this time you don't leave
Somewhere we are together
Somewhere in the stars

Why can't this life be the one?
When you and I met and we stayed in love
Why can't this life go the way I hoped and I planned and I prayed?

Somewhere we are together
Somewhere in the stars
Imagine we are together in a world that isn't ours
And you're holding me so tightly
And this time you don't leave
Somewhere we are together
Somewhere in the stars

Somewhere
I know I hold you somewhere
