

## Add Blue

Listener

She was standing in the dark  
Pockets glowing blue-green  
In the backyard in the floating world  
Of the in-between  
The day will have its troubles on its own  
For the shells of men  
Not meant to be everything  
Can't really be anything  
That's not given or grown  
The violence of it all

It's always risky movement  
Stay down, stay still  
In the unseen, trying to see behind the outside  
There's a beauty in almost everything  
How've you not seen a thing but  
Instead of getting over she got out  
Like a fish made out of bricks  
I fell for you  
Now I'm sinking too

Her loose teeth moving like piano keys  
Gettin' played from lost memories  
Head on the pillow  
Mind in the clouds like a bird looking up for safety  
But it has no home to go to  
It doesn't know what we know  
It can't really go where we go  
She said, "I can't"  
"I can't see"  
"I can't see outta here"

So hand in hand we swam across the lake  
The water warm against our legs  
The only light to find us was the moon  
We went all the way  
From rock to rock we jumped across the bay  
Half blind we stole each others' hearts  
We know we'd be there soon

She was standing in the sparks  
Pockets glowing blue and green  
In her backyard in the floating world  
On the in-between  
Feet covered in gold

Skin blue and glow  
Every ray an arm of reaching light  
Each road different like the snowflakes in her eyes  
Driving somewhere that isn't here  
Sleeping in strange cities  
Our bodies warm to ourselves  
Well what's inside  
All glowing bright behind the teeth  
Right there making soft and weak  
Instead of gettin' over she got out  
Like a fish made out of bricks

I fell for you  
Now I'm sinking too  
Just add blue

As long as we're alive, me and you  
We are love together when we're together  
All crazy inside our rib-cages  
Behind our teeth and voice  
Taking stars for forest fires  
Our fingers scattered in our fists  
Holding onto the films we make  
While our legs feed the wolf

Starting with myself  
Staring at your teeth  
Trying to see what you're saying  
Stabbing and pushing your soul through mine  
We used to live here  
And we will again no doubt  
I'll let you try and figure it out  
While I figure it out

You had it all  
You had it all together  
You had it all figured out

I can't  
I can't see  
I can't see outta here  
I can't  
I can't see  
I can't see outta here  
I can't  
I can't see  
I can't see outta here  
I can't  
I can't see  
I can't see outta here  
Well I can't  
I can't see  
I can't see outta here
