

Do It Again

Lit

Hate my guts
Love you too
We're a mess
Nothing new
It's our thing
Gone too far
Dead end street
Kicked me out of the car

Friday, can't wait
We're at it again
Head on, no brakes
Hope it never ends
All the problems
That we should forget
But we do it again
'Cause we like how it ends

Buttons pushed
Kinda glad
Love that look
When you're mad
We like to pour gas on the fire
Ain't got no time for getting tired
Don't need a reason
We both know we ain't leaving

Friday, can't wait
We're at it again
Head on, no brakes
Hope it never ends
All the problems
That we should forget
But we do it again
'Cause we like how it ends

'Cause we like how it ends

And it keeps us going on
Love it even if it's wrong
We'd never learn our lesson
But it keeps us guessing

And it keeps us going on
Love it even if it's wrong
You'd think we'd learn our lesson, no

Friday, can't wait
We're at it again
Head on, no brakes
Hope it never ends
All the problems
That we should forget
But we do it again
'Cause we like how it ends

Friday, can't wait

We're at it again
Head on, no brakes
Hope it never ends
All the problems
That we should forget
But we do it again
'Cause we like how it ends
