

I want you to feel like the most  
Beautiful girl in the whole wide world  
Cuz you're that girl  
And I want to be the one you need  
The one that you run to  
It's you, yeah you're that girl

I've got the time if you wanna take it  
You've got the smile and I wanna make it  
Give me those lips, I wanna taste em  
Give me one chance, I won't waste it

Yeah  
Something you do to me  
Life goes from a bitch to a breeze  
And the going ain't tough,  
Cuz girl you make love easy  
Yeah  
When you lie right next to me  
My heart goes from a break to a beat  
I never get too much  
Cuz girl you make love easy

I want you to know everything  
Is gonna be okay  
Right here is where I'm gonna stay  
Yeah if life was a rock show you'd be the pyro  
While I'm hitting them high notes  
Leave the two seats in the grass  
Cuz we've got a backstage pass

Yeah  
Something you do to me  
Life goes from a bitch to a breeze  
And the going ain't tough,  
Cuz girl you make love easy  
Yeah  
When you lie right next to me  
My heart goes from a break to a beat  
I never get too much  
Cuz girl you make love easy

I've got the time if you wanna take it  
You've got the smile and I wanna make it  
Give me those lips, I wanna taste em  
Give me one chance, I won't waste it

Yeah  
Something you do to me  
Life goes from a bitch to a breeze  
And the going ain't tough,  
Cuz girl you make love easy  
Yeah  
When you lie right next to me  
My heart goes from a break to a beat  
I never get too much  
Cuz girl you make love easy
