

# Fast

Lit

Life's a hundred and five on an interstate flyin'  
In a jet-black ride, runnin' red lights  
With two feet down, stompin' the gas  
Fast

It's a roller coaster clickin' and climbin'  
Holdin' your breath thinkin' you're gonna die  
Screamin' the whole way down with your hands up high  
Fast

You can't slow it down  
You get one go 'round  
We're all hurrin' up and tryin' to make it last

And we hold on tight  
To this dear sweet life  
Spinnin' our wheels with all we got  
Tryin' to stop that tickin' clock from goin' past  
Fast

It's black and white in a picture frame  
Funny-haired dudes in high-rise jeans  
And catchin' yourself sayin'  
Boy, times sure have changed, and  
Fast

It's three, it's ten, it's seventeen  
Twenty-one and can't believe  
Spittin' image of you and me's a man  
Fast

It's forever gettin' to 18 weeks in a hospital  
Hooked to cold machine  
and finally hearin' the sound of that little heart beat  
Fast

You can't slow it down  
You get one go 'round  
It's a million little moments in your hands

We hold on tight  
To this dear sweet life  
Spinnin' our wheels with all we've got  
Tryin' stop that tickin' clock from goin' past  
Fast, so fast, yeah

It's that split decision you're gonna make  
A second chance you might not get to take  
and knowin' whatever you do you can't turn back

Hope you always take that long way home  
Slow down when you smell the roses  
And whatever's makin' you mad, man, let it go  
Fast

It's that midnight call  
It's your worst fear

Momma crying' you need to get here  
Please be safe, leave as soon as you can  
Fast

It's a hundred and five on an interstate flyin'  
In a jet-black ride, runnin' red lights  
Hopin' to get there in time to hold his hand  
And say I love you, dad... damn  
Fast

(Father, Son and Holy Ghost  
Love and family, faith and hope)

It's gonna go fast  
Get all you can  
...

It's goes so fast
