

Here's To Another

Lit

I know it feels like you're alone tonight
I wish you'd just pick up the phone, it's alright
We're in this thing together
It's you and me for worse or better

Tonight
Here's to another shot again
Tonight
We'll find a way to get right again
This time

This time
This time

It seems like this won't ever end, there's no end
We need a break from what it's been, my friend
And if our days are numbered
You've got my back, I've got you covered

Tonight
Here's to another shot again
Tonight
We'll find a way to get right again
This time

Tonight
Here's to another shot again
Tonight
We'll find a way to get right again
This time

This time
This time
