

# Hold That Thought

Lit

I know it's getting late  
And this feeling just can't wait  
But I've got to catch this flight  
I'll call you later to say goodnight

I know you're getting tired  
Of sleeping all alone and it's been a while  
Counting stars 'til the sun comes up  
I can tell you've had enough

I know my ride is on the way  
But you've got some things you need to say  
And are we sure we're being honest?  
Is this the life we always wanted?

I know that time ain't on our side  
The little we've got we hold on tight  
Said you need more of me I know it  
But can you hold that thought 'til morning  
'Til morning comes

Can we hold on a little longer  
They say it makes the heart grow fonder  
But the hardest part is all this waiting  
You're the song that keeps on playing

Yeah, I can't talk it's way too loud  
I'll try you again back at the hotel  
I know you've heard this all before  
And I wanna tell you more

I know my ride is on the way  
But you've got some things you need to say  
And are we sure we're being honest?  
Is this the life we always wanted?

I know that time ain't on our side  
The little we've got we hold on tight  
Said you need more of me I know it  
But can you hold that thought 'til morning  
'Til morning comes

I know that time ain't on our side  
The little we've got we hold on tight  
Said you need more of me I know it  
But can you hold that thought 'til morning
