

Just Feels Right

Lit

I just know it feels like
Just know it feels like
I just know it feels like
It just feels right

She loves when I sing that song
Don't matter if I play it all wrong
Make it up as we go along yeah
She's cool with that
She's a Margarita on the patio
The sunshine like in Mexico
Nowhere I'd rather go
Than anywhere she's at

It may not make much sense
I can't explain, Yeah

I just know it feels like
Just know it feels like
I just know it feels like
It just feels right

I love when we're all alone
In a crowd, or on the phone
Mixing and feelin like home yeah
She's good with that
She's a take her home to momma kind
Take her out and she blows my mind
Stealing and see her bad side
And I'm cool with that

I just know it feels like
Just know it feels like
I just know it feels like
It just feels right

It may not make much sense
I can't explain, Yeah

Not sure it's the right time
Friends say I'm losing my mind
I wanna spend the rest of my life
If you're cool with that

I just know it feels like
Just know it feels like
I just know it feels like
It just feels right
