

Night in the Life

Lit

It's the back of her band in a beer can bar
High school sweetheart's back of a car
It's blue lights breaking up a parking lot fight
It's choking on the smoke for the first time

It's a night in the life, just pick a town
And I'll bet you money when the sun goes down
There'll be boys chasing girls, chasing stars in the sky

It's crazy, it's tragic, it's messed up, it's magic and
We're just along for the ride
It's a night in the life

It's a pull up dinner at the Baptist's church
It's a loosened up tie after work
It's a touchdown past away in the game
It's phones in the air while the whole crowd sings

It's a night in the life, just pick a town
And I'll bet you money when the sun goes down
There'll be boys chasing girls, chasing stars in the sky

It's crazy, it's tragic, it's messed up, it's magic and
We're just along for the ride
It's a night in the life

It's your dress on the chair, my jeans on the floor
It's me wanting you and you wanting more

It's a night in the life, just pick a town
And I'll bet you money when the sun goes down
There'll be boys chasing girls, chasing stars in the sky

It's crazy, it's tragic, it's messed up, it's magic and
We're just along for the ride
It's a night in the life

It's crazy, it's tragic, it's messed up, it's magic and
We're just along for the ride
It's a night in the life
It's a night in the life
