No Turning Back

Lit

I hope you can hear this
A song for the way you feel tonight
And if you're still listening
There I must be doing something right

So come along
We're better off dead
If we can't live for something

I'm in all or nothing
I might be going under
But I'm not going back
This time, all or nothing
Never stop to wonder
No turning back

I'm all out of reasons
For keeping it all locked up inside
There's no use in waiting
I'm laying it out there on the line

So bring it on
Right or wrong
There's nothing left for me to lose so

I'm in, all or nothing
I might be going under
But I'm not going back
This time, all or nothing
Never stop to wonder
No turning back

So come along
We're better off living like
It's all that we've got

I'm in, all or nothing
I might be going under
But I'm not going back
This time, all or nothing
Never stop to wonder
No turning back

I hope you can hear this
