

# Out Of It

Lit

Hey  
I know I messed up again  
You're over it  
Hey  
I know you need answers  
But I need a second to clear my head

Wait  
If you've got a cigarette  
And one last second chance  
I think you'll understand

This time I'll get us out from under it  
I made the bed you're tired of lying in  
Done lying to myself  
I know you've been through hell  
I'll get us out of it

I'll get us out of it  
I'll get us out of it

Hey  
I know you're stressed out again  
I'm blowing it  
Just stay  
I won't let you down again  
This time I've got a plan  
I think you'll understand

This time I'll get us out from under it  
I made the bed you're tired of lying in  
Done lying to myself  
I know you've been through hell  
I'll get us out of it

I'll get us out of it

This time I'll get us out from under it  
I made the bed you're tired of lying in  
Done lying to myself  
I know you've been through hell  
I'll get us out of it

I'll get us out of it  
I'll get us out of it  
I'll get us out of it
