

# Over It

Lit

Holding my head  
Cause I'm standing on the edge  
And I'm hanging out for you  
I can't figure it out  
What's it's all about

Trying my best  
When I'm sitting on a fence  
What I really gotta to know is  
Are we happy now  
Or is it burning out?

Days go bad  
Trying to get back  
What we had  
And I get...

No words no sex  
This is the message you send  
No hope no chance  
Easy is best that I can  
Are we over it?  
Are we over it?

Give me something else  
Cause I've had enough of this  
Not waiting around to find out  
See I'm drowning out  
And I can't get out

Crying over the shot glass  
Loaded for the car crash  
How did it get screwed up so fast

Wasting time  
When do we know  
Things are not just fine

No words no sex  
This is the message you send  
No hope no chance  
Easy is best that I can  
Are we over it?  
Are we over it?

Are we over it?  
Are we over it?

No words no sex  
This is the message you send  
No hope no chance  
Easy is best that I can  
Are we over it?  
Are we over it?

No words no sex  
This is the message you send

No hope no chance  
Easy is best that I can  
Are we over it?  
Are we over it?
