

These Are the Days

Lit

She said one of these days I'm gonna get out of this town
I'm gonna find me a great big dream and chase it down
I wanna make a lot of money and a whole lotta love and
I said baby ain't we half way there now

Maybe these are the days and I am the one
Maybe you're missing your day in the sun
But all your wishing and dreaming and calling and leaving
Believe me baby these are the days
Maybe these are the days we're gonna look back on
We'll burn like a fire, we'll sing like a song
Maybe you can't see it but carpe diem
And you'll find these are the days
Yeah these are the days

Well last night it hit me when you leave me and you kiss me
and then it can't get any better than right now
So I did it out of thinking and took it without sinking
What we're looking for we already found

Maybe these are the days and I am the one
Maybe you're missing your day in the sun
But all your wishing and dreaming and calling and leaving
Believe me baby these are the days
Maybe these are the days we're gonna look back on
We'll burn like a fire, we'll sing like a song
Maybe you can't see it but carpe diem
And you'll find these are the days
Yeah these are the days

Maybe these are the days and I am the one
Maybe you're missing your day in the sun
But all your wishing and dreaming and calling and leaving
Believe me baby these are the days
Maybe these are the days we're gonna look back on
We'll burn like a fire, we'll sing like a song
Maybe you can't see it but carpe diem
And you'll find these are the days
Yeah these are the days

Maybe you can't see it but carpe diem
And you'll find these are the days
Yeah these are the days
Yeah these are the days
Yeah these are the days
