

# Dressed to Kill

Lita Ford

You're dressed to kill

Come a little closer, so I can look you in your eyes  
So I can see what I been missing, so I can see through the disguise  
You're dressed to kill

You got me in the sight of your gun, you're dressed to kill

Sell your soul to rock and roll  
The only thing that thrills you  
Evil grins as night begins  
Gonna rock until it kills you  
Learn to live fast  
Learn to die young  
Life's one big chase  
You're caught in the race  
You're never gonna slow down

You're dressed to kill  
Kill me baby  
You're never gonna let go  
You're dressed to kill  
You kill me baby  
You're dressed to kill

Wake the dead with loud guitars  
Screamin' in your head  
An angel sings, fulfillls the dreams  
That are dancin' in your bed  
Live for the danger  
Die for the fun  
Life's one big chase  
You're caught in the race  
You're never gonna slow down

You're dressed to kill  
Kill me baby  
You're never gonna let go  
You're dressed to kill  
You kill me baby  
You're dressed to kill

You're dressed to kill

You're dressed to kill

Ahhhh, yeah  
Kill me baby  
You're dressed to kill  
You kill me baby  
You're dressed to kill  
You're dressed to kill...
