

Don't come kiss and tell
She want Birkin, want Chanel
444 tats on her arm
Why she scrolling through my phone
Ice, ice neck is snow
AP on my left wrist now
'Member days when we weren't sure
Now my Benzo 4x4
Big bands overseas
New new Patek Philippe
Don't ask what I need
Be very careful what you preach
Come round don't do too much
My new bitch got tummy tuck
Lifestyle bitter sweet but
Me and my brothers move differently

Bright lights, shining
Damn some things gon' change
Eyes roll back now
This don't feel the same
Demons in the details
I pray now I'm safe
In this life where the money come long
In this life where the women don't stay

3 in the morning swervin'
2 phones need new service
And it looks so picture perfect
But times like this not certain
In the tall grass, damn, what's lurking?
When the snakes come through I'm nervous
Money come long don't hate me
Neck on ice I'm skating

And she fuckin' on me
It's all I need
Keep talking to me
It's all I need
And my VVS beaming now
And it's calling me
And I tell 'em I'm bleeding now

Don't come kiss and tell
She want Birkin, want Chanel
444 tats on her arm
Why she scrolling through my phone
Ice, ice neck is snow
AP on my left wrist now
