

# Don't Know

Lithe

If you don't know know now  
Light it up one more time  
Yeah, if you don't know know now  
Yeah, they ain't even know know now  
One time

I been I been I been through the roof  
Tryna stack my loot now  
I ain't feeling the same  
Talk bout what you do, you do you do  
Go move now  
Bitch there's no room  
Circle tight bitch no room  
What you got do?  
Pull up pull up

If you don't know know now  
Light it up one more time  
If you don't know know now  
They ain't even know know now  
One time

Ten toes down still on my route  
I switch lanes in a brand new coupe  
Talk of my name  
What does he do  
I ain't flip packs just pay my dues  
Better don't say jack, level my crew  
Damn its been a minute so it better go through  
Put me in a spot when the moments due  
Put me in box where the owners do

I been I been I been through the roof  
Damn its getting lonely now  
I ain't really trusting them  
Money coming overtime  
Shit ain't been the same since then  
Baby, I be on my way now, baby I be on my way  
Pull up pull up

If you don't know know now  
Light it up one more time  
If you don't know know now  
They ain't even know know now  
One time

Ten toes down still on my route  
I switch lanes in a brand new coupe  
Talk of my name  
What does he do  
I ain't flip packs just pay my dues  
Better don't say jack, level my crew  
Damn its been a minute so it better go through  
Put me in a spot when the moments due  
Put me in box where the owners do
