

# Don't Send For Me

Lithe

Baby hold it down on my way  
Come on leave it now I'm on my way  
Damn I guess I'm on it now I'm on my way  
You don't gotta send for me I'm MIA  
I'm on my way

I'm out of time got this weight on me  
I'm missing out so tell me what's it gon be  
I'm holding down like it ain't for me  
I'm holding down what you need

OMW, on my mama, OMG  
Girl I think that you forgot bout what you saw in me  
Hard to love but please don't be the one who got away  
What's the harm in talking when I come in harmony  
Hate the fact that we ain't spoken in some weeks  
Blood on hands but we just rinse it and repeat  
Let's speak a language that we both know how to read, you see

Baby hold it down on my way  
Come on leave it now I'm on my way  
Damn I guess I'm on it now I'm on my way  
You don't gotta send for me I'm MIA  
I'm on my way

I learned to cope  
I learned to tame  
I learned to float  
Look I learned some thing  
It taught a nigga how to earn your trust  
I'm not concerned with them  
I know you heard some things  
Look I ain't perfect  
I'm hurting babe  
That make two of us  
The way you purchase things  
This surface level not serving us  
I gotta let you in  
So you interpret things  
The way I meant  
And may I vent  
Based off the things you post online  
I can't help but think you gotta stay off that  
Embrace the fact I won't brace myself for no downfall  
Know they pray on that  
If loving you will make me crazy girl then giving up on you will make a psych  
hopath  
I'm on my way I'll wait outback

I'm falling babe, I'm falling  
Don't let me, don't let me  
Say somebody loves you  
Say somebody want you  
I can be the one  
I can be the one

I'm falling babe, I'm falling

Don't let me, don't let me  
Say somebody loves you  
Say somebody want you  
I can be the one  
I can be the one
