

For You

Lithe

Gotta know that I count on faith
And I pray that I'm not too late
Wanna know when you MIA
Kind of type that I can't stay away
I know and I know you gotta see me
Burn a bridge and the water underneath me
I know and I know you gotta see me

Say you wanna talk my love
Say you wanna talk my love
I been coming way too strong
I been coming way too strong
Now you outside put a show on, yeah
Inside can't hold can't slow down, yeah
I been coming way too strong
My love my love my love

I won't cry for you
I won't cry for you
I won't cry for you
I won't cry for you
I won't cry for you
I won't cry for you

Girl I'm on my side right now
Don't lie girl I know you want to see me
I can't even stand other girls round
I been thinking of you getting neaky
Girl I'm in the S when you gon' come slide
Why you always downtown on Queen street
You be in my head when I need you the most
Why you keep your body by the beaches
Well let me say this, baby
Let me say this, baby
I been losing my mind
I ain't sleep in my bed
Know you ain't my girl
Who you fuckin' instead
I can't stand myself
Knowing you wit someone else
And it ain't worth how it hurts
It ain't worth how it hurts

Say you wanna talk my love
Say you wanna talk my love
I been coming way too strong
I been coming way too strong
Now you outside put a show on, yeah
Inside can't hold can't slow down, yeah
I been coming way too strong
My love my love my love

I won't cry for you
I won't cry for you
I won't cry for you
I won't cry for you
I won't cry for you

I won't cry for you
