

Like We Wrote

Lithe

Peace on me, peace of mind
Took some time
I'm just reaping what I saw
So for sure brand new O's
That's just for me and my bros
Keep secure, 4x4
G63 parked 'round my ends
No new friends, no new friends
Pay for keeps, can't play pretend

Savour me
In the back when the windows turn
Yeah, 'cause I know too much
Damn, yeah, I know too much
Tryna come take on me
And my 43, they don't miss me
They ain't even thought this is fun
This ain't no question, right?
Just like I know
Made room for you
You got me, I forgot
You had no place to trust
Just like you talk
Just like we roll
Now we with Bentley trucks
Now there's no saving us

Peace on me, peace of mind
Took some time
I'm just reaping what I saw
So for sure brand new O's
That's just for me and my bros
Keep secure, 4x4
G63 parked 'round my ends
No new friends, no new friends
Pay for keeps, can't play pretend
