

Nothing's Changed

Lithe

Girl, I fucking hate it when you lie
You keep on telling me we're fine though
I just might be running out of time
You keep on selling me these high hopes
Girl, I fucking hate it when you, woah
You just keep on faking till we
You're not so complacent with me
That's just what it seems like lately

I think you're crazy
You think we're done for
She said don't worry
I won't be staying long
I think you're crazy
You think we're done for
She said don't worry
Yea, yea, yea, woah

And now you come my way I
I feel like nothing's changed

Girl, I fucking hate it when you say
You just keep getting in the way
All that shit is so god damn cliché
You keep on pushing me away
Don't know why you stayed
Don't know why you stayed
You'd think that we're done hating
But somehow we kept the pace
Now it's all too late
Now it's all too late

I think you're crazy
You think we're done for
She said don't worry
I won't be staying long
I think you're crazy
You think we're done for
She said don't worry
Yea, yea, yea, woah
And now you come my way I
I feel like nothing's changed
