

## Selfish Game

Lithe

I'm by myself she say like  
You pushed me back when I did  
Putting all the time away  
Ain't trust me back now I can't  
You know I'm selfish and  
Love me when I say baby  
You know I won't regret  
You know it's all for you

Running out time  
Loving all night  
You know I'm tryna need that now

Meet me at the spot right now  
Loving don't lie  
Why I gotta' need that now

Yeah, they really talk that talk  
Loving don't lie  
Never know if you need me now

Yeah, you really talk that talk  
She loving on sight now

What you into  
Tell me baby come on what you here for  
You ain't been around that's an insult  
You just been around that's an insult

What you into  
Maybe baby it's just cause I miss you  
You ain't been around that's an insult  
You just been around that's an insult
