

Slide By Me

Lithe

Who gon' slide by me?
If she love me when I'm wrong
Who gon' on take my place
If you leave my love alone

Damn come slide by me
Cause if I'm honest I don't know

You come round and fool me once she fool me twice
Shame on me I left that open one more time
You feel like this life I lead won't test no time
I touch down my texts gon' blue my texts gon' live

New shorty watch pockets on me
Been fucking with the last two weeks
Guess I been about it tryna' feel right now
Guess shit change when you speak too loud

Prada bags, Dior, Van Kleeef
All this money no change on me
Who's gon' love me when I
Who's gon' love me when I'm

Who gon' slide by me?
If she love me when I'm wrong
Who gon' on take my place
If you leave my love alone

Damn come slide by me
Cause if I'm honest I don't know

Who gon' slide by me?
If she love me when I'm wrong
Who gon' on take my place
If you leave my love alone

Damn come slide by me
Cause if I'm honest I don't know
