

Too Far Gone

Lithe

Damn, I heard you out of state now
I know we ain't had a way out, way out
I know we ain't even talk much
We just kinda lost touch
You just got away, got away, got away
Damn, I heard you got a mans now
Yeah, like that was in your plans now, hmm
But I won't tell you how I've changed, I haven't
I'm stuck on you, yeah
I could never keep up with you I

You know
Yeah, the more that I ran
I changed for you
Crossroads
But I barely could stand
Can't stand the truth

For you
For you I ran, for you, yeah
Follow you
For you

Maybe I'ma listen when the sun don't rise
I just been running watch the years go by, yeah
You could probably find all the pain in my stride
Long time coming I'ma rest tonight
Maybe I'ma listen when the sun don't rise

You know
Yeah the more that I ran
I changed for you
Crossroads
But I barely could stand
Can't stand the truth

For you
For you I ran, for you, yeah
Follow you
For you

I know you ain't ever stop, no
I know you ain't ever stop, no
I know you ain't ever stop, no
Too far gone
Now that you are far gone
Now that you are far gone, baby
