

When It's Over (Interlude)

Lithe

Rush I don't rush yeah I don't ask for much
Yeah I don't eat I don't sleep when
You're not here with me
I don't watch hard to see when ain't no nobody else you know I
I left for you to be you

For you bae
Yeah for you bae
For you baby I won't change I
Bae
For you bae
Yeah for you baby I won't

I been here a minute now
I been here a minute now
I been heading over
Fucked up with this nonsense
I been letting go now
You just let me know now
Love me when it's over
Love me when it's over

Say
She gon' tell me stay the night
What you want to settle now
Cause she got here ahead of time
You just knew you always mine

For you bae
Yeah for you bae
For you baby I won't change I
Bae
For you bae
Yeah for you baby I won't

I been here a minute now
I been here a minute now
I been heading over
Fucked up with this nonsense
I been letting go now
You just let me know now
Love me when it's over
Love me when it's over
