

## A Little More You

Little Big Town

Don't you want to dive on in?  
Yeah, the water feels right  
Dancing on the edge of love  
You're a beautiful sight

So why you still standing there in the half moon light?  
Come on, baby, give me a little more you  
Come on, baby, give me a little more you  
You're batting those baby blues, and, honey, I swear

The way you got me needing you, girl, it just ain't fair  
You've given me a little bit, yeah, but don't stop there  
Come on, baby, give me a little more you  
Come on, baby, give me a little more you  
I'm here falling for ya; my heart's calling for ya

I know I never can get enough  
Don't hold back one bit of your love  
Strong and steady for ya, I'm all ready  
Come on, baby, give me a little more you  
Come on, baby, give me a little more  
You're teasing me with a touch and the whole world shakes

Keep holding that river back and the levee may break  
There's only so much of this a boy can take  
Come on, baby, give me a little more you  
Come on, baby, give me a little more you  
I'm here falling for ya, my heart's calling for ya

I know I never can get enough  
Don't hold back one bit of your love  
Strong and steady for ya, I'm all ready  
Come on, baby, give me a little more you  
Come on, baby, give me a little more you  
Come on, baby, give me a little more
