

## Silver and Gold

### Little Big Town

Hangin' out with the scarecrow blues  
On the other side of being used  
The whine and the whistle of a passing train  
Sounds so heavy when it says your name

Baby, when you're down, baby, when you're down  
Lost your shine and your feet are cold  
You don't have to stay down, you don't have to stay down  
You're like silver, you're like gold  
You're like silver, you're like gold

Wind caught up in the weather vane  
Soaked to the bone from a summer rain  
I'll be right there to see you through  
The dust, and the rust, and the scarecrow blues

Baby, when you're down, baby, when you're down  
Lost your shine and your feet are cold  
You don't have to stay down, you don't have to stay down  
You're like silver, you're like gold  
You're like silver, you're like gold  
(2x)
