

# The Breaker

Little Big Town

I'd like to call you up right now and see how you're doin'  
But I don't wanna hurt you anymore so I'll leave you alone  
I could tell by the look on your face you didn't see it comin'  
I was tryin' to do what's best but damn if it don't feel wrong

I shot the stars out of your sky  
Took the love right from your eyes  
And I did it all knowing you thought, I  
Was the hero of your heart  
But I turned out to be  
The breaker

I wish I could give you what you needed  
But you can't tell a heart how to feel, but I've tried to  
And I made you a promise with no way to keep it  
But what kills me the most, I'd still do anything for you

I shot the stars out of your sky  
Took the love right from your eyes  
And I did it all knowing you thought, I  
Was the hero of your heart  
But I'll forever be... breaker
