

Figures

Little Comets

I've been watching figures□ on your bedroom floor
My grasp of figures leaves you wanting more

Well, maybe I'm above this
Oh-oh
Well, maybe I'm above this
Oh-oh
Well maybe I'm above this

I've been watching figures for a long time now
And somehow your figure leaves me feeling down

Well, maybe I'm above this
Oh-oh
'Cause I'm never gonna miss you now
Oh-oh
Because I'm sure that I'm on top of this
Oh-oh
They'd need a miracle for ya

So, so, so sorry
For what I've done
So, so, so sorry

So what lonely heart is supposed to stand by and listen
There's a hole in my soul, but I don't know what's missing
So why on earth, with nowhere else to turn
There is so much more to live and learn
What lonely heart is supposed to stand round and cheat me
There's a hole in my soul and I'm not seeing clearly
So why on earth, with nowhere else to turn
There is so much more to live and learn

So I'm sure that I'm above this
Oh-Oh
Because I'm sure I'm above this

I've been watching figures from a different floor
And your grasp of figures left me wanting more
