

## Another Lover

Little Dragon

I can't understand what I'm doin'  
Don't understand where we goin'  
Please understand where I'm comin' from  
Understand that it's all in me  
But not plain to see

Please understand that we're strummin'  
Why understand where we goin'?  
I understand life be flowin'  
Dreamin' as you be talkin' to me  
About where we'll be

I'm wearin' your gold  
You whisperin' that it's over to yourself  
It's creepin' up my shoulder  
Ooh, ooh  
Oh

I understand where you comin' from  
Understand my devotion  
Don't understand what we doin'  
I understand that it's plain to see  
But not clear to me

Where the river flow, that's where I wanna go  
With you, with you, with you  
I just know that we are always love  
Oh, ooh

Love the darkness and love our sorrows, oh  
When it's time for summer  
I just know we will always bloom  
Ooh, ooh, hoo

Or will you have to find another kind of pure lover?  
Won't you learn from it all?  
And if I fall into the arms of another, I hope I will discover the truth  
Ooh, I long for you

Can't understand what I'm doin'  
Don't understand where we're goin'  
Please understand where I'm comin' from  
Understand that it's all in me  
Not plain to see

Understand our devotion  
Don't understand where we're goin'  
I understand life be flowin'  
Understand that it's plain to see  
Not clear to me
