

Layers

Little Dragon

Layer after layer
Layer after layer

Don't take it from me
I know, I know
Everything I can't control
A bitter taste
A warm embrace only lasts a little while
Fake smile holding me down

Better press your hands together
Dive in
Learn in your own time
Come in your own time
Learn in your own time
Left me standing open ocean
Dive in
Learn in your own time
Come in your own time
Learn in your own time

Layer after layer

I'll give this to you
My eyes refined
'Cause I been working over time
I'll wear it new, so sick of you
I'd only last a little while
Ten trials holding me down, ooh

Better press your hands together
Dive in
Learn in your own time
Come in your own time
Learn in your own time
Left me standing open ocean
Dive in
Learn in your own time
Come in your own time
Learn in your own time
