

Lily's Call

Little Dragon

Ghost singing in the wind
Voices I can't forget
How bittersweet it is
I know how where we came to this

La, la, la, la, la, la, la, la
La, la, la, la, la

Lily's call, for us all
Feel our scent, for the fall
Don't pretend you didn't know
Light on us, blind us all
Lily's call, for us all
Feel our scent, for the fall
Don't pretend you didn't know
Light on us, blind us all

Past on a secret wish
Whispers I can't forget
How did we come to this?
How bittersweet it is

Lily's call, for us all
Feel our scent, for the fall
Don't pretend you didn't know
Light on us, blind us all
Lily's call, for us all
Feel our scent, for the fall
Don't pretend you didn't know
Light on us, blind us all
