

Just a Fever

Little Feat

In a world so cold
Hip slick and cool
I'm burning up and starting to drool
I'm just a fever

Wanna see your soul
Burning bright and clear
Turn yourself around
And take a lookie here
I'm just a fever

Having visions
Seein' demons
Shakin' apostles
Delirium tremens

Feel like kickin' and I wanna kill
My temperature's rising
Feelin' the chill
I'm just a fever

Stoke the fire - fan the flame
Turn up the heat ya know
It's all the same
I'm just a fever

Having visions
Seein' demons
Shakin' apostles
Delirium tremens

You look at me like
I ain't happened to you yet
Got a little something
Just to make you sweat
I'm just a fever

Dr. Jeckle tried to hide it from me
Then he said
Ya can't cool down
If you do you're dead

Having visions
Seein' demons
Shakin' apostles
Delirium tremens

Just a fever
I'm just a fever
