

Too High To Cut My Hair

Little Feat

We've traveled this whole world to where the mountains meet the
sea

And sometimes it's so hard to face reality

We made it through the lice, we made it through the lies

But when I see you dancing you know baby I realize

Johnny said we've gotta buy the chairs

But you're too high

You're too high

You're too high, too high

Baby, you're too high to cut my hair

You're too high to cut my hair

Sampson said Delilah ain't nothing left to say

I followed every footstep, that brought us to this day

Even though my promises are given with great care, we both know
my darlin

You're too high to cut my hair

Johnny said we've gotta buy the chairs

But baby, you're too high to cut my hair

You're too high to cut my hair

You're too high, too high

Baby, you're too high to cut my hair

You're too high to cut my hair

You're too high, too high

Baby, you're too high to cut my hair

You're too high to cut my hair
