Little Man Tate

Hey little sweetie don't you know it's a fact  
Your family's gonna be so proud you're top of the class  
Now you've got your degree, they hope you return  
To show your friends and lovers, all the things that  
you've learned

Poor little sweetie, did you dabble with drugs?  
Did you indulge in one night stands, convinced it was

And when bottles of red, went straight to your head  
You'd wake up thinking, "who the hell that's man in my  
bed?"

You're emotionally deluded  
And you're prides being bruised  
Your boyfriend, brother, Mum and Dad  
Applaud you from the stage  
They'll never know you went through it all just to  
graduate
