

# Nothing Else Matters

Little Mix

Sometimes you take it too far, going at the deep end  
Uh huh, uh huh  
No matter what the deal, babe, you know that I'll be there  
Uh huh, uh huh  
If we lose our way, let the world start to creep in  
Uh huh, uh huh  
Can't let nobody's words be the why we ain't speaking  
Uh huh, uh uh

Only the birds and the bees know we go  
Little bit high, Little bit low  
Cause we've come, we've come so far, oh baby  
Baby, too much is not enough  
All the things that we do for love  
Cause we've come, we've come so far, oh baby  
When you coming around?

'Cause nothing else matters like us  
And nothing else matters like love  
I don't wanna fight, not tonight  
'Cause we're having fun now  
And nothing else matters like us  
And nothing else matters like love  
You've just gotta believe, if it leaves  
That it's coming back around

And I don't really care about nothing else  
Nothing else matters  
Yeah, no, nothing else

I told ya don't let me down, I know you never did  
And I don't want ya, don't want ya, this time now

I got the lock, give you the key  
Look at us now, still you and me  
Man, we come, we come so far, oh baby  
So when you coming around?

'Cause nothing else matters like us  
And nothing else matters like love  
I don't wanna fight, not tonight  
'Cause we're having fun now  
And nothing else matters like us  
And nothing else matters like love  
You've just gotta believe, if it leaves  
That it's coming back around

And I don't really care about nothing else  
Nothing else matters  
Yeah, no, nothing else

No, I don't want, don't want nobody else  
And I got you, I got you all to myself  
All of them, all the boys will never be you now  
I give it all, all to you, so baby, don't let me down  
You love so deep, your body on me  
I'm all the way up when I got you on my scene

We got it all, babe, right where we want it to be  
I told you no-no-nothing else matters to me

I said, 'cause nothing else matters like us  
And nothing else matters like love  
I don't wanna fight, not tonight  
'Cause we're having fun now  
And nothing else matters like us  
And nothing else matters like love  
You've just gotta believe, if it leaves  
That it's coming back around

And I don't really care about nothing else  
Nothing else matters, yeah, no, nothing else  
I don't really care about nothing else  
Nothing else matters, yeah, no, nothing else
