

# Nothing Feels like You

Little Mix

I could have all the money  
All the fancy treasures in the world  
25 acres just to hold my diamonds and my pearls

But all of that's a fantasy  
Nothing like I wanna be  
Baby you and me that's real  
Something like a masterpiece  
We be up in galleries  
You and I, that's real

If I had everything, it wouldn't mean a thing  
'Cause nothing feels like, nothing feels like you  
No matter what they say can't take my love away  
'Cause nothing feels like, nothing feels like you

Baby even when we're miles apart  
You'll always stay inside my heart  
Let me tell you no one else will do  
'Cause baby nothing feels like you

Boys will be boys  
I got plenty knocking at my door  
But none of them compare  
Baby, you're the one I'm waiting for

'Cause I'm living in a fantasy  
Every time you're here with me  
Kiss me if it's real  
Baby you and me for keeps  
You bring out the best in me  
Now you know that's real

If I had everything, it wouldn't mean a thing  
'Cause nothing feels like, nothing feels like you  
No matter what they say can't take my love away  
'Cause nothing feels like, nothing feels like you

Baby even when we're miles apart  
You'll always stay inside my heart  
Let me tell you no one else will do  
'Cause baby nothing feels like you

No nothing like ya  
No nothing like  
No nothing like ya  
No nothing like

If I had everything it wouldn't mean a thing  
'Cause nothing feels like, nothing feels like you

No matter what they say can't take my love away  
'Cause nothing feels like, nothing feels like you

Baby even when we're miles apart  
You'll always stay inside my heart  
Let me tell you no one else will do

'Cause baby nothing feels like you

No nothing like

(You)

No nothing like

(You)

No nothing like
