

Rendezvous

Little Mix

Tension, I need your attention
Lately you've been slipping
Baby, you've been missing
Mmm

Miss you, why you make me miss you?
I guess that's my issue
Don't you need your fix too?
Mmm

Say you if need a ride, I could be right outside
Pull up in your driveway, take you to paradise
We can go anywhere, as long as we take it there
Nothing that I won't do

How you feel about a rendezvous?
Rendezvous, time for two
I ain't tryna fall in love with you
Just tryna do a rendezvous

And you already know the time and place
Come see me face-to-face
I want you every day
In every single way
Yeah, you know the time and place
Come see me face-to-face
I want you every day
In every single way
Ayy

Take it, like an invitation
To new elevations
Hard to see locations, mmm
Mmm

Tempo, get to that crescendo
Pick the pace up, go slow
Clouding up the window
Mmm

Say you if need a ride, I could be right outside
Pull up in your driveway, take you to paradise
We can go anywhere, as long as we take it there
Nothing that I won't do

How you feel about a rendezvous?
Rendezvous, time for two
I ain't tryna fall in love with you
Just tryna do a rendezvous

And you already know the time and place
Come see me face-to-face
I want you every day
In every single way
Yeah, you know the time and place
Come see me face-to-face
I want you every day

In every single way
Ayy

Baby, I don't wanna wait for you to
Come and take my breath away, want you to
Let me hear you say my name like you do
So tell me if you're still awake

How you feel about a rendezvous?
Rendezvous, time for two
I ain't tryna fall in love with you
Just tryna do a rendezvous

And you already know the time and place
Come see me face-to-face
I want you every day
In every single way
Yeah, you know the time and place
Come see me face-to-face
I want you every day
In every single way
Ayy
