

# Orbit Zero

Little River Band

Once more around, he said, "I think it's time to go down"  
Come take a look, she's wearing the dawn like a gown  
There's enough here for everyone  
A lonely planet 'round a crowded sun  
Orbit zero, it's time to go

Approach from the dark side, where the oceans seem calm  
Land yourselves gently, we don't want to cause them alarm  
When you get to a settlement  
Make it plain, why we were sent  
Orbit zero, down you go

I feel that something's wrong  
There's danger there for everyone  
Turn back, oh, can't you guess  
That this lady is in distress?

Yes, it seems that something's wrong  
Just another crowded planet 'round a lonely sun  
Orbit zero, on we go

Order them back at once, it seems there's something to fear  
We'll leave them alone, there's nothing that we can do here  
We'll return into the night, a vanishing point at the speed of light  
Orbit zero, on we go, orbit zero, on we go  
Orbit zero

(Orbit zero)  
Are we ever, are we ever gonna find it?  
Are we ever really gonna find it?  
(Orbit zero)  
Are we ever, are we ever gonna find it?  
Are we ever really gonna find it?

(Orbit zero)  
Are we ever, are we ever gonna find it?  
Are we ever really gonna find it?  
Are we ever, are we ever gonna find it?  
(No, no, no, no, no, no)

Are we ever really gonna find it?  
(Will we ever find it?)  
Are we ever, are we ever gonna find it?  
(Are we ever gonna find it?)

Are we ever really gonna find it?  
(No, no, no, no, no, no, no)  
Are we ever, are we ever gonna find it?  
(Will we ever, will we ever, will we ever find it?)  
Are we ever really gonna find it?  
Are we ever, are we ever gonna find it?
