

Control

Little Simz

Your love is all I want, and all I need
It's true, I've been alone so long
So please, don't let me go (Take control)
I've been alone so long
So please, don't let me go (Take control)

Under control, out of control
He is for me, for me to behold
You give me ocean of reasons to moan
I give you passion, and keys to my soul
Which pleases you most?
Lying to self is easy for most
The next morning, looked at me and smiled, with a glare in his eye
There's a limit on the time that we share in this life
Let go, and let God handle it, tell me what it is that you really fear in th
is life
Sometimes, when you have trauma, you think trauma's gonna show up at your do
or anytime
Call me anytime, lost in my head, more than a sign
Two bodies intertwine, an electric field right now 'cause the energies match
New territory when the connection builds, and you have memories attached
Hard to let go
You won't do me like that
Time heals, but the love never die for you
Had to let go of the pry for you
I'm mature, put it all on the line for you
Know you wanna hear my truth, I wanna hear yours, I'm listening too
Looking through a wabi-sabi lens, so I get a wabi-sabi view
I don't wanna hear bad news
Look at how far we've come, at a time when we've got no more shit to lose

Promise to take my hand, and never let it go
'Cause your love is all I have, and all I know
Take control

I got nothin' to hide, give you a piece of my mind
When the waves are against me, I just go with the tide
Learning compassion and patience, tryna swallow my pride
Never wanna be complacent, it's either I ride, or I die
I had the best night of my life
We was walking 'round the city, looking at architectural designs
Doing shrooms in a hotel room, turning off all of the lights
Gimme all of you, all of it
Smoking on somethin', now the airways getting clogged up, and I think it's l
ove
If I give you soul, man, it's a deeper trust
Mai-tais on the beach, feet kicked up, yeah
Don't listen to a word they say
I'm in your head, like, every day
Then, our favourite song gets played, yah
It could be way simpler than it seems
You is a G, I is a G
Let's make a baby that's gorgeous and green
Oh, what a dream

Take my hand, and never let it go
Promise me you'll be here when I'm low

Take my hand, and never let it go
Promise me you'll be here when I'm low
Take my hand, and never let it go
