

# Enough

Little Simz

She bad in that stiletto  
I heard she from the ghetto  
Ain't nothing like your average  
She on a different level  
You think your who he feeling?  
Hahaha, I'm screaming  
Don't interrupt my song  
Okay bitch, carry on  
I thought the world of you  
You thought the worst of me  
I'm rogue from head to toe  
My steez is rock 'n' roll  
You see my London girls, do it like so  
Wasting my time is a big no no  
If you ain't gonna move, you should probably go home

Don't make me pull the plug  
I've almost had enough  
Don't make me pull the plug  
Don't make me pull the plug  
Don't make me pull the plug

My time is of importance  
Her ego on enormous  
Like you didn't know I is that girl  
I am an electric black girl  
I'm not the one to test  
I can't take disrespect  
So pipe down with all that chest  
My actions speak so I always say less  
I'm in too deep when it comes to the music shit  
They all wanna know who I'm moving with  
Just know the brave survive  
Maybe that's why I feel so alive  
Bad gyal do it like so  
Wasting her time is a big no no  
If you ain't gonna move you should probably go home

Don't make me pull the plug  
I've almost had enough  
Don't make me pull the plug  
Don't make me pull the plug  
Don't make me pull the plug

My lightning strike  
Need to keep my vision bright  
If I loose it and I kick you out of sight  
For the love of my life, I will put up any fight  
I think I've had enough  
Don't make me pull the plug  
My lightning strike

Need to keep my mind straight  
If I loose it and I put you in your place  
Nobody can control  
The movement of a flame  
I think I've had enough  
Don't make me pull the plug

I think I've had enough  
Don't make me pull the plug  
Don't make me pull the plug
