Little Simz

Nobody needs to know  
We can keep it on the low  
More truth for you and your soul  
Still it goes

Would you love me?  
Tryna be your one and only  
I can't feel my heart beat  
Boy you caught me  
Ooh you make me nervous  
So nervous  
If I go  
Promise you will find my soul  
Find my soul  
Ooh you got me frozen  
Nobody has to know  
Just keep it on the low low  
Ooh what you do to me  
Ooh what you, what you do to me  
Ooh what you do to me  
Me me me me me, meeeeee  
Are you in to soul food?  
Or expensive tastes at nobu?  
Why do you have me...  
Feelin' this way, can't escape  
Can't escape no no  
If I go, promise you will find my soul  
Promise me you'll save my soul  
You have me frozen  
Me frozen  
Nobody has to know

You know that I'm not a singer  
But still I deliver  
Got a... thing for that wine I take it straight to the liver  
Tryna paint these lyrics perfect so you get the picture  
Lights camera action I know you like to point the finger in the mirror  
I know that nobody's perfect  
But still boy you're worth it  
Tryna make you smile with this  
Tell me is it working?  
How d'you do this to me how d'you do this to me  
You say that your feelings are there why don't you prove it to me

If I go...  
Promise you will find my soul  
Ooh you have me  
Frozen  
Nobody has to know know  
We can keep it on the low low  
Ooh what you do to me  
Ooh what you do to me

Woo!  
Woo!  
Woo!
