Take your time
Inhale, exhale
Breathe
Do you want 15 years or 15 minutes?
Do not tire yourself out
One foot out of line and you'll be ridiculed

I'm trying to live up to the expectations
Putting everything I can into what I create
I'm tryna be the best version of myself
I'm tryna be the greatest version of myself
I know I've got a lot to learn and I can be stuck in my ways, yes
But honestly more time I feel like I'm stuck between a rock and a hard place

But understand you're human
Be proud
Your light will shine in the darkest hour
Pressure makes diamonds
Do not fold
They won't silence you but they'll try to
So follow your heart, it'll guide you

2+2 is 4
1+1 is 2
4+2 equals 6
