

Lion

Little Simz

We don't care for what they say, that's my superpower
We don't care for what they say

Bet you never seen a young black woman so fly
Sim Simma has arrived
Got the heart of a lion, my Nigerian pride
Everybody scatter, scatter
They say that the task force is waiting for me outside
Yo, is you really down for the ride?
If I get cuffed, know I dedicated my life
Gun fire, ratatata
If it gets to kicking off, will you go dey my?
Will you go dey my side?
Give me stainless gold
Think it's the time to finally take my throne
Forget that lane, true, I made my own
I got the power in me, not afraid no more

Is the world gonna keep up?
Clear to see they can't do what she does
Come on follow the leader
Can't deny the truth, we giving it to you through your speaker

Ooh, don't break you neck
Looking for something like this
You will never find something like this
The way I skill dem, dey go give me life sentence
Ooh
Don't break your neck
Don't break your neck
Looking for something like this
And you will never find something like this

Understand I'm Lauryn in her prime, when you see me
The Ras with me, see the locs dem swinging
I roll up in this bitch, looking Nefertiti
Better kiss the ring when you see me
I ain't even scraped the surface from the power that's within me
Couldn't get here without us putting up a good fight
This shit is never what is seems
Look at them like, what do you mean nigga?
We just had a dream and a push bike
Mama said that it will happen in good time
I was struggling to run it on my last legs
Said, I'll never quit until I take my last breath
I was down on my luck, past tense
Now it's champagne reception, smart dress
Out of my hands
It's God plan
And with these blessings, I try to bless who I can, go

Ooh, don't break you neck
Looking for something like this
You will never find something like this
The way I skill dem, dey go give me life sentence
Ooh
Don't break your neck

Don't break your neck
Looking for something like this

We don't care for what they say, that's my superpower
We don't care for what they say, that's my superpower
We don't care for what they say, that's my superpower
We don't care for what they say, that's my superpower
We don't care for what they say, that's my superpower
We don't care for what they say, that's my superpower
We don't care for what they say, that's my superpower
We don't care for what they say, that's my superpower
We don't care for what they say, that's my superpower
