

# Low Tides

Little Simz

The pinnacle of what we can get to  
Is the thing that's gonna test you  
Make your best move  
Call who to the rescue  
You can save yourself  
God bless you  
Imma always be a strong woman in my heart  
I'm the type to pull it together not apart  
Ready to keep it pushing when the engine starts  
Lane switch every other day in a car got me chasing  
Now I got a dream in the stars  
You can never be basic  
How d'ya beat the challenges that you're faced with  
Who I came with  
Space age spaced out in the space station  
Ain't nothing changed  
Now they want a piece of the pie  
Shoulda listened when I came in the game  
This ain't none of the weak shit  
Damn, all you rappers sayin, sounding the same  
Better gimme that

When your time is up  
And you're feeling low  
And you drink too much  
Then the cycle goes on

Do you even wanna be here  
Don't pretend that you can't see  
I don't even wanna be here  
Hope that you remember me

We love harder in the struggle  
But gotta make it out, gotta make it out  
Before this shit lands me in trouble  
Why we living in a bubble  
Women are trying to get the diamond ring from a man  
There's a bigger plan  
So figure it out while you can  
Bowin' my head and prayin' they understand  
Given every last bit of my being to the fans  
Boy I went through, steady grew into the man  
And I've grown up  
Know now, I'm a legacy  
Oh boy would you learn from me  
When you meet the one don't treat her any worse than me  
I'm not perfect no, I've made mistakes  
But don't lie to my face  
Though the truth hurts, I'll be okay  
Be ruthless, that ain't no way  
Yo give me that, give me that

Say when your time is up  
And you're feeling low  
Then you drink too much  
Then the cycle goes on  
Do you even wanna be here

Don't pretend that you can't see  
I don't ever wanna be here  
Hope that you remember me

Tide's low  
And the mind's blowin'  
Tryna find the right way on this ride home  
Shit I might know it  
But who decides though  
Shoulda known that this more than suicidal

Tide's low  
And the mind's blowing  
Tryna find the right way on this ride home  
Shit I might know it  
But who decides though  
Shoulda known that this more than suicidal

Say when your time is up  
And you're feeling low  
And you drink too much  
Then the cycle goes on

Do you even wanna be here  
Don't pretend that you can't see  
No I don't even wanna be here  
Well I hope that you remember me-e

Tide's low  
And the mind's blowing  
Tryna find the right way on this ride home  
Shit I might know it  
But who decides though  
Shoulda known that this more than suicidal
